Supporting the influence of French savoir-faire
Institut Paul Bocuse’s 25th Anniversary in 2015 was an opportunity to share with the world the excellence of its teaching and the uniqueness of the school, its students and its graduates.

In order to maintain these exceptional assets, we must - as we have always done - anticipate the future, update our skillsets and improve ourselves! In this competitive and rapidly growing sector, I am firmly convinced that Institut Paul Bocuse must move forward in order to consolidate its position as a model of excellence for teaching related to the Hospitality, Catering and Culinary Arts occupations.

With this in mind, my nephew Gilles and I initiated the creation of a Foundation to support and accompany the development of Institut Paul Bocuse. Our controlled growth must enable us to welcome 1,000 students starting in 2020, while retaining the school’s founding values, which focus on the excellence of our education and the individualized follow-up with each student.

I hope that our vision and our plans for Institut Paul Bocuse, briefly described in this brochure, will convince you to support us.
